EOS

TRANSACTIONS, AMERICAN GEOPHYSICAL UNION

EOS invites the contribution of semitechnical reviews and by-lined news notes related to recent research, as well as letters to the editor. Material must be easily readable by all members of AGU, contain little or no mathematics, be of broad interest to scientists in various disciplinary sections of the Union, and be timely.

EOS also welcomes contributions dealing with the interfaces of geophysics with society. Through EOS, earth scientists keep abreast of new challenges and opportunities in geophysics and thus should be better prepared to face their own work with a broad perspective. This journal is an effective way to address those involved in the study of the earth and its environment in space.

Send double-spaced manuscripts (four copies) to EOS, AGU, 2000 Florida Avenue, N.W., Washington, D. C. 20009, or send them directly to one of the associate editors with a copy to the above address.

Editor: A. F. Spilhaus, Jr.; **Associate Editors:** Claude J. Allegre, Kevin C. Burke, Kristina Katsaros, Gerard Lachapelle, Christopher T. Russell, Richard A. Smith, Sean C. Bell, Lee Greathouse; **EOS Production Staff:** Michael Connolly, editor's assistant; Eric Garrison, copy editor; Marie Marshall, production assistant; Dae Sung Kim, senior layout artist; Anna Johnson, typesetter.
